August 18, 2021

Warwick City Council
Attn: Stephen P. McAllister, President
3275 Post Road
Warwick, RI 02886

As requested by the Warwick City Council, we have performed the following investigative procedures enumerated below solely to assist the Warwick City Council with understanding certain facts and circumstances with respect to the sick leave benefit accruals and payments made by the Warwick Fire Department (the "Department") for the period of February 1, 2013 to June 30, 2018. Our services were conducted in accordance with Statements on Standards for Consulting Services (SSCS 1), established by the American Institute of Certified Public Accountants and performed primarily from August 2018 to January 2019.

Our procedures, findings and recommendations are as follows:

Agreements

1. We reviewed Article VIII of the Agreement by and between the City of Warwick and Local 2748, International Association of Fire Fighters AFL-CIO, July 1, 2015 to June 30, 2018, ("the Agreement") for purposes of determining the applicable requirements for accrual, usage and payment of sick leave benefits for Warwick Firefighters.

The sections of Article VIII pertinent to our procedures, with the most pertinent sections in bold, are as follows:

SECTION 1. SICK LEAVE

"Sick leave shall be granted at the rate of twenty (20) working days per year accumulative to one hundred forty (140) working days; provided, however, that additional sick leave may be granted at the discretion of the Chief of the Department. **During the month of February in each year, the City of Warwick shall cause to be calculated and information made available upon request, each member's present entitlement under this clause**. A member's entitlement to accumulated sick leave shall be determined from the date of his or her first appointment to the Department."

"Days of absence due to injuries and/or illness contracted outside the line of duty shall be subtracted from the employee's sick leave as hereinbefore

specified. Days of absence due to injuries and/or illness contracted in the line of duty shall not be subtracted from the employee's days of sick leave hereinbefore specified."

"Sick leave shall be recorded at the rate of 1 2/3 days per month to every employee employed by the City on the 15th day of any month."

SECTION 4. SICK LEAVE PAY UPON RETIREMENT OR DEATH

"In any case where an employee retires or voluntarily terminates his or her employment with the City leaving unused, accumulated sick leave, **the City shall pay three—fourths (3/4ths) of the amount of such accrued, unused sick leave to the employee on his or her retirement or leaving the employ of the City.**"

"The amount of unused, accumulated sick leave pay shall be determined by multiplying the employee's most recent daily rate of pay by the number of unused, accumulated days of sick leave."

SECTION 4.5 SICK LEAVE PAY UPON DISABILITY RETIREMENT FOR SERVICE CONNECTED DISABILITY

"In any case where an employee retires due to service-connected disability, as set forth in this Agreement, leaving unused accumulated sick leave, **the City shall pay three-fourths (3/4ths) of the amount of accrued unused sick leave to the employee upon his or her retirement."**

SECTION 6. PAYMENT FOR UNUSED SICK LEAVE AFTER MAXIMUM ACCUMULATION

"In any case where an employee has accumulated his or her or her maximum sick leave entitlement under Section 1 hereof, he or she shall, at the end of each year, be entitled to be paid for three-fourths (3/4) of his or her unused, yearly sick leave entitlement, pro-rated on a monthly basis, not to exceed fifteen (15) days. Such payment is to be made on the basis of said employee's daily rate of pay and shall be paid to the employee by the last day of each month."

SECTION 7. PERSONAL LEAVE DAYS

"All employees shall be entitled to two (2) personal days per year. Such personal days will be deducted from the employee's sick leave and shall be available only when manpower is available and no overtime is incurred as a result of taking such days."

Analysis:

Section 6 of the article indicates that for an employee who has accumulated the maximum sick leave of 140 days, " he or she shall, at the end of each year be entitled to be paid" for 3/4s of unused sick days and "paid to the employee by the last day of each month".

This section appears to be contradictory. The wording indicates that the entitlement is paid at the end of each year, which would infer that use of sick leave during the entire year would be deducted prior to making any payment for unused sick leave, over the maximum entitlement. It also states, however, that payments should be made by the last day of each month. Additionally, Section 1 indicates "During the month of February in each year, the City of Warwick shall cause to be calculated" "each member's present entitlement".

It is not practical to maintain accruals, calculate and pay these benefits under both monthly and annual payout scenarios, as both will arrive at very different results, depending upon timing of usage of sick days and rates of pay. The pertinent sections of the Agreement should be revised to reflect the true intentions of the parties to the Agreement, so that accurate and consistent calculation of sick leave accruals and payments can be made. We noted during our investigation that the Department made payments on a monthly basis.

Further, Section 6 of Article VIII indicates that once the maximum number of sick days is reached, an employee is "entitled to be paid for three-fourths (3/4) of his or her unused, yearly sick leave entitlement" "not to exceed fifteen (15) days". If an employee utilizes any sick days during the year, a monthly payment scenario, as used by the Department, results in a payout of greater than 3/4ths of his unused yearly sick leave, as demonstrated as follows:

An employee enters a year with 140 sick days, accrues 20 days during the year, and uses four sick days in the last month of the year, leaving the employee with 16 unused sick days. His or her maximum payout of "unused, yearly sick entitlement" would be 12 days (16 days * ¾). Under a monthly payout scenario, the employee would be paid out 13.78 days (11 months * 1.67 per month * ¾) which exceeds 3/4ths of their maximum "unused, yearly sick entitlement" by 1.78 days, then accrue an additional 1.67 in the last month and use 4 days. This scenario would also result in a lesser carryforward to the next year by 2.33 days (140 + 1.67 – 4). Furthermore, as shown in our procedures below, the Department has been consistently adding the unpaid ¼ portion of the monthly sick entitlement back to the accrual resulting in the employee maintaining a maximum level of sick leave once such maximum level has been achieved.

1a. Based on the Council's request to expand our procedures to the prior contract period, we reviewed Article VIII of the Agreement by and between the City of Warwick and Local 2748, International Association of Fire Fighters AFL-CIO, July 1, 2012 to June 30, 2015, ("the Agreement") for purposes of determining the applicable requirements for accrual, usage and payment of sick leave benefits for Warwick Firefighters.

Analysis:

The wording of this 2012 contract is similar to the July 1, 2015 to June 30, 2018 contract with the exception of the payout rates reference in Article VIII, sections 4, 4.5 and 6. These payout rates were ½ as opposed to the ¾-increased rate in the subsequent contract. In addition, the maximum days to be paid out per Section 6 was 10 days in the 2012 contract, which increased to 15 days in the 2015 contract.

During the course of our procedures, we became aware of a separate document dated April 23, 2013, which purports to be an agreement between the City of Warwick and Local 2748 regarding unused sick leave, signed by the Union President at the time and the Fire Department Chief at the time. The documents states:

Article VIII, SECTION 6. PAYMENT FOR UNUSED SICK LEAVE AFTER MAXIMUM ACCUMULATION

In any case where an employee has accumulated his or her maximum sick leave entitlement under Section 1 hereof, he or she will be entitled to be paid for 1/2 of additional accumulation on a monthly basis. Payment will be made by the last pay period of the month in which the day is earned, at the employee's daily rate of pay as of the first day of the month. The remaining 1/2 of the sick leave allowance will continue to accumulate until January 31 of each year. During the first week of the month of February sick leave accumulations will be reduced to 140 days.

This document differs from the 2012 contract wording in that it eliminates "at the end of each year" wording referencing timing of payment, eliminates "not to exceed ten (10) days" in reference to limitation on the payout, and adds that the "remaining 1/2 of the sick leave allowance will continue to accumulate until January 31 of each year. During the first week of the month of February sick leave accumulations will be reduced to 140 days".

Based on a memorandum dated November 3, 2018 from the City Council's legal counsel, John J. Harrington, Esquire that concludes that the 2013 document is void and unenforceable, this wording was not applied in our recalculations of sick leave payments, as detailed later in this report. See Appendix A for copy of the memorandum.

Reconciliations

2. We obtained copies of the following documents from the Warwick Fire Department for the period from February 1, 2013 to June 30, 2018 ("the period"):

    - Accountability worksheets
    - Monthly Sick Leave Pay reports
    - Annual Sick Pay Reports
    - Payroll Registers
    - Record of Sick Leave Sheets by Firefighter

3. We performed recalculations of the Monthly Sick Leave Pay Reports and Annual Sick Pay Reports for the period, based on the terms noted in the Agreement, under both monthly and annual payout scenarios referenced in the Agreement, quantifying any discrepancies in the calculations we identified.
We noted the following types of errors occurring in the calculations:

   - Multiple instances whereby a payment of 100% of a firefighter's pro-rated monthly sick entitlement was calculated.
   - Calculations allowed for carryforward of a 1/4th portion (½ prior to July 1, 2015) of the monthly entitlement when paying out 3/4th portion (½ prior to July 1, 2015) of the monthly accrual. This resulted in a carryforward of greater than the maximum entitlement to the next month. Written procedural information was obtained from the Warwick Fire Department indicates that this carryforward of the 1/4th portion (or .41) was the standard operating practice. See Appendix B. However, we also obtained written procedural information from the Warwick Fire Department that contradicts this practice. See Appendix C.

   Under a monthly payout scenario, as used by the Department, the errors contributed to excess payouts of:

   - $27,948.88 for the February 2013 to January 2014 period
   - $65,657.16 for the February 2014 to January 2015 period
   - $96,643.33 for the February 2015 to January 2016 period
   - $84,537.97 for the February 2016 to January 2017 period
   - $81,343.64 for the February 2017 to January 2018 period
   - $29,744.22 for the February 2018 to June 2018 period[1]

   The total excess payouts calculated for the 65-month period under a monthly payout scenario is $385,875.20.

   Our calculations are included in Appendix D.

   Under an annual payout scenario, the errors would have contributed to excess payouts of:

   - $29,546.75 for the February 2013 to January 2014 period
   - $71,565.28 for the February 2014 to January 2015 period
   - $23,315.90 for the February 2015 to January 2016 period
   - $86,214.01 for the February 2016 to January 2017 period
   - $70,040.12 for the February 2017 to January 2018 period
   - $27,360.71 for the February 2018 to June 2018 period

   The total excess payouts calculated for the 65-month period under an annual payout scenario is $308,042.77.

[1] Mayor Joseph Solomon ceased payments for unused sick leave, effective July 1, 2018.

Our calculations are included in Appendix E.

The difference in annual vs. monthly payout scenarios for the 65-month period is $77,832.43.

Analysis:

Generally, there will be differences in the two calculations based on the timing of usage of sick days. A major reason for the difference between the error totals in the monthly and annual payout scenarios for the February 2015 to January 2016 period is the contractual change of paying .5 vs. .75 per unused sick leave day in the 2015 contract. Under a monthly payout scenario, firefighters were paid at .5 per accrued day up until June 30, 2015, then .75 thereafter. Under an annual payout scenario, the firefighters would not be paid for any accrued days until the end of the annual period in January 2016, whereby they would be paid .75 for all unused sick leave days in excess of 140, 50% more than would have been paid under the monthly scenario up until June 2015 under the old contractual rate.

Additionally, the annual payment scenario would generally reflect greater rates of pay due to any promotions or raises that occurred during the periods analyzed. For example, during the period from February 2017 to January 2018, the average daily rate of firefighter pay increased from $328.39 to $338.88. Over the course of the period, 1,136 days would have been paid out at the higher average rate of pay under the annual payout scenario and a portion of these days would have been paid at a lesser amount under a monthly payout scenario.

A third factor that can result in lower payouts under a monthly payout scenario is if a firefighter uses a substantial portion of their sick leave in the beginning of a period. Under this scenario, it may take a firefighter several months to get back to the 140 days required to be eligible for a payout again. Under an annual payout scenario, the usage of sick leave cannot put a firefighter under 140 days if he or she started the year with 140 days accrued, unless they utilize in excess of their entire 20 day allotment during the period.

4. We reconciled sick leave reporting for individual firefighters from the Accountability Worksheets to usage charged in Monthly Sick Leave Pay Reports and Annual Sick Pay Reports to determine if all sick leave taken is reported in these reports for the period from February 2013 to June 30 2018. By accessing the Warwick Fire Department's Purvis System, which maintains scheduling data and generates the Accountability Worksheets, we were able to sample sick leave entries by firefighter to reconcile those entries to the Sick Leave Pay Reports, which are used by the Warwick Fire Department as a means of calculating sick leave accruals and payments.

   Based on the procedures performed, we noted:

   - One firefighter was not charged for 5 days used which were paid out on retirement which resulted in an excess unused sick leave payment of $1,291.46
   - One firefighter was not charged for 7 days used which were paid out on retirement which resulted in an excess unused sick leave payment of $1,918.61

5. We reconciled the Record of Sick Leave Sheets by Firefighter to usage charged in Monthly Sick Leave Pay Reports and Annual Sick Pay Reports to determine if all sick leave recorded in the Record of Sick Leave is reported in these reports.

   Based on the procedures performed, we noted no exceptions. It appears the sick leave usage recorded on the Record of Sick Leave is charged as usage in the Monthly Sick Leave Pay Reports and Annual Sick Pay Reports.

6. We reconciled sick leave payments per Payroll Registers to Monthly Sick Leave Pay Reports and Annual Sick Pay Reports to determine if payments to firefighters for sick leave are properly accounted for and as usage and rates of pay and amounts are accurate.

   We noted that prior to January 2018 usage of sick leave was not separately reported as an element of payroll in the City's payroll register. Prior to this date, sick leave usage was reported as regular payroll in the City's registers. As a result, usage of sick leave could not be agreed from reporting in the payroll registers prior to this date.

   We noted that actual payments for unused sick leave per payroll registers reconciled to the monthly sick leave reports for payments to active firefighters with a cumulative variance of $318 where the Sick Pay Reports calculations exceeded the amounts paid per Payroll Registers. The reports varied from the payroll registers in instances where a firefighter retired and received a payout of unused sick leave, as allowed for in Sections 4 and 4.5 of Article VIII of the Agreement, as this payout was not recorded on the Sick Pay Reports, but rather calculations ceased for the individual on a go forward basis. Further review indicated that these payouts were consistent with a payout rate of .75 (and .5 as applicable to the 2012 contract) of unused sick leave.

   Additionally, we noted that The City's reporting of use of sick leave in payroll registers is inconsistent with the actual dates an employee used sick leave. A sick leave day is reported as a separate element of the employee's pay in the payroll for the week following the pay period in which the employee actual took the sick day. Since this is not a delay in payment of a benefit, but merely an allocation of wages for a given week, there is no reason to delay reporting this item accurately. This reporting methodology is misleading and should be corrected. When factoring in this delay to our review, were able to reconcile Payroll register data for sick leave usage to sick leave pay reports and noted no instances where sick leave usage was recorded in payroll registers and not accounted for as usage in sick pay reports from January 2018 to June 2018.

Summary of Findings and Recommendations

Agreements

The City of Warwick should seek to clarify the terms of its Agreement with Local 2748, International Association of Firefighters and resolve contradictory terms referencing monthly and annual unused sick leave payouts, stating either one method or the other, not both, as noted in section 1 of our report.

Additionally, the Agreement is imprecise as to what constitutes a sick "day". In general, if sick leave was taken for greater than 10 hours (as per the Accountability Worksheets), this was considered a day. Most instances of sick leave are for an entire shift rather than a partial shift, so this is not a major issue, but should be clarified in the Agreement.

Per the Agreement with Local 2748, "The City of Warwick recognizes Local 2748 as the exclusive bargaining agent for all the permanent sworn uniformed employees of the Warwick Fire Department, excepting the Chief and the Assistant Chief(s), for the purpose of collective bargaining relative to wages, salaries, hours and working conditions. The right of the Chief and the Assistant Chief(s) to belong to Local 2748 shall in no way be limited or affected by this agreement."

We noted that there were no written policies governing sick leave benefits for Chief and Assistant Chief(s) of the Warwick Fire Department. The Acting Fire Chief at the time of our procedures informed us that sick leave is accrued for these individuals at the same rates as other employees, however, accruals must be used annually, or they are forfeited. The Acting Chief confirmed with the City's Personnel Director that no written policy exists. The City should formalize a policy as it relates to sick leave benefits of the Chief and Assistant Chiefs.

Calculations

Manual Accounting System

The Warwick Fire Department maintained a manual system of tracking sick leave whereby each employee's usage of sick leave and accrual is maintained on a hand written ledger by Warwick Fire Department Personnel. The activity is also maintained on an excel spreadsheet which calculates unused sick leave payouts used in determining payments due to employees. As evidenced by the multiple errors identified during our procedures, the manual nature of the process increases the risk that errors in maintaining sick leave records will go undetected.

Segregation of Duties

The City of Warwick should institute policies and procedures that allow for greater control over sick leave calculations to reduce errors. At a minimum, these procedures should include segregation of duties whereby separate individuals are responsible for authorizing usage of sick leave, maintaining accruals and authorizing payment of unused sick leave. Additionally, policies and procedures relating to sick leave accruals should require supervisory review. This review should document who performed the review and when the review was performed.

Accounting Periods

The Warwick Fire Department utilized a February 1st to January 31st year for determining the annual allotment of sick days that a firefighter can receive. This year is inconsistent with both the City's fiscal year, July 1st to June 30th, and the City's contract with Local 2748. The City's contract has historically been for three-year periods that coincide with the City's fiscal year. This timing difference creates difficulties in reconciling the budgeted and actual costs associated with the sick pay benefit to the usage of such benefits. The City should institute polices and structure its contract

with Local 2748 such that annual allotments are accounted for on the same fiscal year used by the City.

Timing of Reporting

The City's timing of reporting of usage of sick leave benefits is inconsistent with the actual usage of sick leave benefits. Beginning in 2018, the City's payroll registers report hours and pay attributable to sick leave as an element of an employee's pay for a given week. However, this reporting is delayed one week from the actual date the employee used the sick leave. This reporting method is inaccurate and should be corrected.

Integrated Time and Attendance

The City should consider implementation of a time and attendance system that is integrated with its employee entitlements policies. Elements of an effective time and attendance system allow information from original entry via time clocks or mobile devices to reports for approval of time entry, to authorization of payments. These systems allow for the creation of rules tailored for tracking of employee entitlements that are specify to an entity's personnel policies. Implementation of such a system would the reduce time required to maintain payroll and entitlement information and reduce errors due to manual calculations and tedious data entry. Such a system could be implemented without supplanting the City's overall payroll processing system.

Conclusion

In Summary, based on the investigative procedures performed, our findings indicate the following:

- The Warwick Fire Department's practice of allowing for carryforward of the unpaid portion of Warwick firefighter monthly sick leave entitlements in excess of the 140 hours allowable under the contract and errors in these calculations resulted excess payments of $385,875.20, when recalculated by us under a monthly payout scenario February 2013 to June 30, 2018.

- The Warwick Fire Department's practice of allowing for carryforward of the unpaid portion of Warwick firefighter monthly sick leave entitlements in excess of the 140 hours allowable under the contract and errors in these calculations resulted excess payments of $308,042.77, when recalculated by us under an annual payout scenario for the period from February 2013 to June 30, 2018.

- Errors in the process for recording the usage of sick leave benefits resulted in excess unused sick time benefit payouts to two firefighters on retirement totaling $3,210.07.

- The City should seek to modify inconsistent contractual wording as it relates to monthly vs. annual payout scenarios for unused sick leave benefits.

- The City should seek to modify its policies and procedures for maintenance of sick leave benefits to better control and more accurately account for this benefit.

- The City should seek to establish written policies regarding accrual and maintenance of sick leave benefits for the Warwick Fire Chief and its Assistant Chiefs.

We were not engaged to, and did not conduct an audit, the objective of which would be the expression of an opinion on the accounting records. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

It should be noted that during the period of our investigation, one of the Partners of our Firm was the Treasurer of now former Councilman Steven Merolla's Campaign. We did not deem this fact to impair our objectivity in performance of these investigative services, as Councilman Merolla was not the subject of this investigation nor was he responsible for maintaining the sick leave accruals and payments for the Warwick Fire Department.

This report supersedes all drafts previously provided to you.

This report is intended solely for the information and use of the Warwick City Council and is not intended to be and should not be used by anyone other than those specified parties.

MARCUM, LLP

APPENDIX A

H B&H

MEMORANDUM

to: City Council President Steven Merolla
from: John J. Harrington, Esquire
subject: Fire Department sick leave
date: November 3, 2018

I. Introduction

A legal opinion was requested regarding the 2013 document on sick leave executed by the Firefighters Union President at that time and the Chief of the Warwick Fire Department at that time. The document referenced a section of the Collective Bargaining Agreement that was in effect during 2013 and modified the terms of that Collective Bargaining Agreement. The issue is the legal viability and enforceability of that 2013 document.

The scope of this memorandum is limited to addressing whether the 2013 document executed by the Union President and the Chief of the Fire Department is a valid enforceable agreement between the Firefighters Union, Local No. 2748 and the City of Warwick.

To the extent the terms of the 2013 document were implemented and revised the payment for accumulated excess sick leave to employees of the Fire Department, I have not reviewed the Department records detailing the sick leave accumulations and payments to Department employees. Thus, this memorandum will not address the scope to which the terms of the 2013 document were implemented.

In preparing this memorandum, I have reviewed the applicable sections of the Collective Bargaining Agreement for the period of July 1, 2012 to June 30, 2015, which was in effect when the 2013 document was executed. I also reviewed the successor Collective Bargaining Agreement for the period of July 1, 2015 to June 30, 2018. In addition, I reviewed the 2013 document and applicable statutory law and case law, all of which will be addressed herein.

II. Background

A. Applicable Law

The legal validity of the 2013 document must be addressed in the context of the law at the time

and the terms of the Collective Bargaining Agreement that existed between the Firefighters Union and the City at the time.

Under the State Firefighters Arbitration Act, RIGL §28-9.1, et. seq., the Firefighters Union negotiated a collective bargaining agreement with the City. The obligation of the City under State law to bargain is as follows:

> **§ 28-9.1-6. Obligation to bargain.**
>
> It shall be the obligation of the city or town, acting through its corporate authorities, to meet and confer in good faith with the representative or representatives of the bargaining agent within ten (10) days after receipt of written notice from the bargaining agent of the request for a meeting for collective bargaining purposes. This obligation shall include the duty to cause any agreement resulting from the negotiations to be reduced to a written contract, provided that no contract shall exceed the term of one year, unless a longer period is agreed upon in writing by the corporate authorities and the bargaining agents, but in no event shall the contract exceed the term of three (3) years unless a budget commission or a receiver has been appointed for a municipality or fire district pursuant to chapter 9 of title 45, or if a municipality has a locally administered pension plan in "critical status" and is required to submit a funding improvement plan pursuant to § 45-65-6(2). In either case, the contract shall not exceed the term of five (5) years. An unfair labor practice charge may be complained of by either the employer's representative or the bargaining agent to the state labor relations board which shall deal with the complaint in the manner provided in chapter 7 of this title.

Significant to this matter is the language in the first sentence that states the city acts through "its corporate authorities". That term is defined in RIGL §28-9.1-3 entitled Definitions:

> As used in this chapter the following terms, unless the context requires a different interpretation, have the following meanings:
>
> (1) "Corporate authorities" means the proper officials within any city or town whose duty or duties it is to establish the wages, salaries, rates of pay, hours, working conditions, and other terms and conditions of employment of fire fighters, whether they are the mayor, city manager, town manager, town administrator, city council, town council, director of personnel, personnel board or commission, or by whatever other name or combination of names they may be designated.

The statute expressly names the mayor as a "corporate authority". A department director or a department chief is not a "corporate authority" for purposes of collective bargaining.

Historically, and pursuant to the State Arbitration Act, Collective Bargaining Agreements have been negotiated by the Mayor and his staff for the City.

The Rhode Island Supreme Court has clearly stated that only a municipal official with actual authority can bind the City to an agreement. Individuals with "apparent authority" cannot bind the City to a contract.

> We reject the plaintiff's assertion that a municipality may be bound by the actions of a public agent who possesses only the apparent authority to do so. That is because "the authority of a public agent to bind a municipality must be actual * * *." Casa DiMario, Inc. v. Richardson, 763 A.2d 607, 610 (R.I.2000) (quoting Warwick Teachers' Union Local No. 915 v. Warwick School Committee, 624 A.2d 849, 850-51 (R.I.1993)). "Consequently, any representations made by such an agent lacking actual authority are not binding on the municipality * * *." Casa DiMario, Inc., 763 A.2d at 610 (quoting School Committee of Providence v. Board of Regents for Education, 429 A.2d 1297, 1302 (R.I.1981)).
> ***Potter v. Crawford*, 797 A.2d 489, (2002)**

If the collective bargaining negotiations result in an agreement between the City and the Union, for reasons addressed below, it is a "tentative agreement", subject to ratification. Typically the Union membership is asked to ratify the tentative agreement that was negotiated by its leaders. Ratification by the City Council has been required by Ordinance since 2006.

> **Sec. 2-18. - Ratification of collective bargaining agreements.**
> (a) No collective bargaining agreement between the City of Warwick and any labor organization shall become effective unless and until ratified by the Warwick City Council.
> (b) Each contract, before submission to the city council, shall contain a fiscal note.
> (c) At least one public hearing shall be held prior to city council ratification of any collective bargaining agreement.

Failure to secure ratification of a collective bargaining tentative agreement by the City Council renders that agreement void.

B. Applicable contract provisions

Pursuant to the legal requirements set forth above, the Firefighters Union and the City entered into a collective bargaining agreement for the period July 1, 2012 to June 30, 2015. The Mayor and his staff negotiated to a tentative agreement with the leadership of the Firefighters Union that was signed by the Mayor for the City. That tentative agreement was ratified by the City Council

as required by the Ordinance. It was also ratified by the Union membership. Therefore, that 2012 to 2015 Collective Bargaining Agreement was a legally enforceable contract between the union and the City.

Article VIII of that Collective Bargaining Agreement contained the sick leave provisions. Under Section 1 employees were granted twenty sick days per year, which could be accumulated to one hundred forty days by carrying over unused sick days from one year to the following year. They were credited monthly at the rate of 1⅔ days per month, which in a 12 month period would accrue to 20 days annually. The right to carryover and accumulate unused sick days was capped at 140 days.

The right to accrue and carryover unused days to the cap of 140 days meant that a new employee with perfect attendance would need to be employed at least 7 years before that employee would reach the carryover cap of 140 days. Any use of sick time during the 7 years would lengthen the time period beyond 7 years before the cap would be reached. Section 1 of the Collective Bargaining Agreement that contained the provisions addressed above is set out in its entirety in the Appendix attached hereto.

Section 6 in Article VIII addresses payment for unused sick leave after the maximum accumulation of 140 days.

> SECTION 6. PAYMENT FOR UNUSED SICK LEAVE AFTER MAXIMUM ACCUMULATION
>
> In any case where an employee has accumulated his or her or her maximum sick leave entitlement under Section 1 hereof, he or she shall, at the end of each year, be entitled to be paid for one-half (1/2) of his or her unused, yearly sick leave entitlement, prorated on a monthly basis, not to exceed ten (10) days. Such payment is to be made on the basis of said employee's daily rate of pay and shall be paid to the employee by the last day of each month.

Under the provisions of Section 6, when an employee accumulated one hundred forty days of unused sick leave, that employee received compensation for one half of the excess days. The other half of the excess days was removed from the account of the employee and extinguished. The yearly cap for compensation was ten days, which was half the 20 sick days an employee would accrue annually under Section 1 of Article VIII. Proration monthly and payment by the last day of the month allowed the payment for excess sick days to occur on a monthly basis but for no more than 10 days annually.

Under Section 1, sick days were accrued monthly at the rate of 1⅔ days per month. Under Section 6, credited days in excess of 140 were to be paid monthly to the employee at the rate of

one half the daily rate of pay. The other half day was removed from the employee's accrual and extinguished. That half day was no longer available for use as a sick day or for compensation under the language of the contract. That process by which an excess sick day was compensated for a portion of the day with the balance of the day extinguished, was long standing under the collective bargaining agreements between the Union and the City.

C. The 2013 document addressing sick leave

The 2013 document, which is on Union stationary, is dated April 23, 2013 and purports to be an agreement between the City of Warwick and Local 2748 regarding unused sick leave. However, the signatories to the document are the Union President at the time and the Fire Department Chief at the time. Unlike other contractual agreements between the Union and the City, the document is not signed by the Mayor, who is the corporate authority for the City for collective bargaining negotiations. On its face, it does not state that it is a tentative agreement subject to ratification. The document stated:

> Article VIII, SECTION 6. PAYMENT FOR UNUSED SICK LEAVE AFTER MAXIMUM ACCUMULATION
> In any case where an employee has accumulated his or her maximum sick leave entitlement under Section 1 hereof, he or she will be entitled to be paid for 1/2 of additional accumulation on a monthly basis. Payment will be made by the last pay period of the month in which the day is earned, at the employee's daily rate of pay as of the first day of the month. The remaining 1/2 of the sick leave allowance will continue to accumulate until January 31 of each year. During the first week of the month of February sick leave accumulations will be reduced to 140 days.

The first two sentences in the paragraph reflect the language that was actually in Section 6 of the Collective Bargaining Agreement at the time. However the third sentence, which states that the remaining half day "will continue to accumulate" is a material change from the language in the Collective Bargaining Agreement because it prohibits the extinguishment of that remaining half day once compensation is paid for the other half of the day.

Significantly, the document does not state that the remaining half day can be used as sick time. It also does not state that the remaining half day is entitled to compensation. The document merely states that at the beginning of February, sick leave accumulations will be reduced to 140 days. The purpose of the preservation of the remaining half day that "will continue to accumulate" is not stated. Assuming for the sake of discussion that the document signed by the Fire Chief had some validity to preserve the remaining half day that should have been extinguished when compensation was paid for the day, the document did not authorize the use of or payment for that remaining half day. The document merely stated that the half day would continue to accumulate.

Preserving the half day that should have been extinguished when compensation was paid for the day was a material change to a term and condition of the Collective Bargaining Agreement. It was a contract modification that was subject to the City's ordinance that required City Council ratification, a fiscal note and a public hearing. The 2013 document was never submitted to the City Council for ratification.

There is one more significant point about the history of the 2013 document. It was executed while the 2012 to 2015 Collective Bargaining Agreement was in effect. A successor agreement was negotiated by the Union and the City for the period July 1, 2015 to June 30, 2018. For the City, the successor agreement was negotiated by the Mayor and his staff as provided for in the State Firefighters Arbitration Act. The negotiations resulted in a tentative agreement that, pursuant to the City Ordinance, was submitted to the City Council for ratification. The tentative agreement was approved so there was a new contract between the parties for the period commencing on July 1, 2015.

That Collective Bargaining Agreement also contained an Article VIII on Sick Leave. Section 6 addressed payment for unused sick leave after the maximum accumulation. The only change in language from the prior contract was to increase the compensation for excess days from one half day to three quarters of a day and to increase the annual cap for payment from 10 days to 15 days, which is three quarters of the annual sick day accrual of 20 days. Otherwise, the language in the contract is identical to the 2012 – 2015 contract. None of the language from the 2013 document that permitted continued accumulation was included in the new successor Collective Bargaining Agreement.

III. The 2013 document is void as a contract between the City and the Firefighters Union

For a number of reasons, the 2013 document that purports to modify and enhance the benefit of payment for excess unused sick days is not an enforceable contractual agreement between the City and the Firefighters Union.

On its face, it lacks the specificity to be relied upon as the basis for changing how the excess unused sick time was compensated under the Collective Bargaining Agreement that was in existence at the time. It merely stated that the portion of the day that should be extinguished upon payment for the half day shall continue to accumulate. Then it stated that in February sick leave accumulations will be reduced to 140 days. There is no statement in the document authorizing use of or payment for the new accumulation of time. Therefore, if the document was an enforceable agreement, no additional credit of time should have been given to employees based on that document and its vague terms.

Also, the legally authorized corporate authority to negotiate Collective Bargaining Agreements or modifications to Collective Bargaining Agreements is the Mayor. The Fire Department Chief is not a legally authorized corporate authority to negotiate Collective Bargaining Agreements or modifications to Collective Bargaining Agreements. The Mayor did not sign the document on behalf of the City. Therefore, no additional credit of time should have been given to employees based on the 2013 document because the Fire Chief had no legal authority to enter into an agreement that modified compensation for excess unused sick days and any attempt to do so was void. Under the case law in Rhode Island, the Fire Chief had no apparent authority to legally bind the City to such an agreement to modify the existing Collective Bargaining Agreement. Only an official with actual authority could enter into such an agreement. The Union President at the time was experienced in labor relations and should have known that the failure to obtain the signature of the Mayor was fatal to the purported agreement.

In addition, the City Ordinance makes any Collective Bargaining Agreement signed by the Mayor subject to ratification by the City Council after a fiscal note has been issued and public hearing held. A modification to an existing Collective Bargaining Agreement that has a benefit enhancement must proceed through the same process to be valid and enforceable. The 2013 document was never submitted to the City Council for ratification and is void as an enforceable agreement with the City. Therefore, no additional credit of time or compensation should have been given to employees based on that document.

Finally, in 2015 the parties entered into a new Collective Bargaining Agreement that contained the same language as the expiring Agreement, except for a change in the rate of compensation from one half to three quarters of a day's pay. The language from the 2013 document that continued the accumulation of time that should have been extinguished was not part of the 2015 to 2018 Collective Bargaining Agreement, which was ratified by the City Council. The new agreement in 2015 superseded all prior agreements unless some terms or provisions were preserved in that new agreement. Since the terms of the 2013 document which continued the accumulation of time that should have been extinguished upon payment of compensation for excess unused sick time were not included in the new 2015 Collective Bargaining Agreement, there was no legal basis to credit additional time to employees.

For any and all of the reasons stated above the 2013 document is void and not an enforceable agreement between the Firefighters Union and the City of Warwick.

There has been advanced an argument that the modification to excess sick time compensation is valid as a past practice between the parties to the Collective Bargaining Agreement.

The use of past practice to resolve collective bargaining disputes in Rhode Island is governed by

a statute that was initially enacted in 2000 and amended in 2007. The consideration of past practices by arbitrators in labor relations disputes is limited to three circumstances set out in section (a) of RIGL § 28-9-27:

> **§ 28-9-27. Use of past practices in arbitration hearings.**
>
> (a) An arbitrator shall have the authority to consider the existence of a past practice that may exist between the parties to a collective bargaining agreement only under the following circumstances:
> (1) the collective bargaining agreement does not contain an express provision that is the subject of the grievance, or
> (2) the collective bargaining agreement contains a provision that is unclear and ambiguous, or
> (3) the collective bargaining agreement contains a provision which has been mutually agreed upon by the parties that preserves existing past practices for the duration of the collective bargaining agreement.
>
> (b) A party claiming the existence of a past practice shall be required to prove by clear and convincing evidence that the practice;
> (1) is unequivocal;
> (2) has been clearly enunciated and acted upon;
> (3) is readily ascertainable;
> (4) has been in existence for a substantial period of time;
> (5) has been accepted by representatives of the parties who possess the actual authority to accept the practice.
>
> (c) A past practice that may exist between the parties to a collective bargaining agreement may not override any contrary provision of an existing collective bargaining agreement, statute or ordinance.
>
> (d) A past practice that may exist between the parties to a collective bargaining agreement may not override any contrary provision of any written rule, regulation, or policy that has been promulgated, adopted, and published pursuant to either the Administrative Procedures Act or promulgated and published by the appropriate governing entity in a city or town.
>
> (e) Any party to a collective bargaining agreement may provide written notice to the other party that it no longer intends to be bound by a past practice unless the collective bargaining agreement contains a provision which has been mutually agreed upon by the parties that preserves existing past practices for the duration of the collective bargaining agreement. This notification must describe the past practice and set forth the effective date of the termination of the practice. Neither party is obligated to follow the practice thirty (30) days following this notification.

The criteria in section (b) of the statute cannot be invoked unless one of the circumstances in

section (a) is present. In addition, there must be compliance with the provisions of section (c), which states that a past practice cannot override a contrary provision in an existing collective bargaining agreement.

In this matter, none of the circumstances of section (a) of the statute exist:

1) The Collective Bargaining Agreement contained an express provision dealing with payment for unused sick leave after maximum accumulation.
2) The provision in the contract addressing payment for unused sick leave after maximum accumulation is clear and unambiguous, especially based on the long history of how it was applied prior to 2013.
3) The Collective Bargaining Agreement does not contain a provision that preserves existing past practices.

In addition, section (c) prohibits any practice that would override the express language in Section 6 of Article VIII that addresses compensation for unused sick leave after maximum accumulation. That principle has also been recognized by the Courts:

> "[A]n established past practice . . . [does] not automatically become enshrined as part and parcel of the collective bargaining agreement, with the same binding effect on the parties as their contractual provisions." Chicago Web Printing Pressmen's Union, No. 7 v. Chicago Newspaper Publisher's Ass'n, 772 F.2d 384, 388 (7th Cir. 1985). "[I]f a past practice, although in existence for several years arose from an obviously mistaken view of a contractual obligation, it need not be allowed to continue." Elkouri & Elkouri, How Arbitration Works, § 12.9 (7th ed. 2012). "[W]here there is a conflict between the past practice of the parties and the contract language, the contract language governs." City of Newport v. Lama, 797 A.2d at 472 (citing Town of N. Providence v. Local 2334, Int'l Ass'n of Firefighters, 763 A.2d 604, 606 (R.I. 2000)) (internal citation omitted).
> ***Town of West Warwick v. International Association of Firefighters, Local 1104*, C.A. PM-2012-4218 (Superior Court of Rhode Island August 29, 2013).**

The clear language in Section 6 of Article VIII of the Collective Bargaining Agreements governed payment for unused sick leave after the maximum accumulation of 140 days; not any practice that arose under the 2013 document.

IV. Conclusion

For the reasons stated herein, the 2013 document that purported to be an agreement between the Union and the City modifying the payment for excess unused sick leave is void and unenforceable. Any credit for additional sick leave or additional compensation that was paid to

employees based on that 2013 document was credited or paid in violation of the Collective Bargaining Agreements that were in effect from 2012 to 2018. The City should pursue restitution and reimbursement for those credits and payments from the Union and/or the individuals who benefited from the changes that occurred under the 2013 document.

APPENDIX

ARTICLE VIII
SECTION 1. SICK LEAVE

Sick leave shall be granted at the rate of twenty (20) working days per year accumulative to one hundred forty (140) working days; provided, however, that additional sick leave may be granted at the discretion of the Chief of the Department. During the month of February in each year, the City of Warwick shall cause to be calculated and information made available upon request, each member's present entitlement under this clause. A member's entitlement to accumulated sick leave shall be determined from the date of his or her first appointment to the Department.

Days of absence due to injuries and/or illness contracted outside the line of duty shall be subtracted from the employee's sick leave as hereinbefore specified. Days of absence due to injuries and/or illness contracted in the line of duty shall not be subtracted from the employee's days of sick leave hereinbefore specified.

Sick leave shall be recorded at the rate of 1⅔ days per month to every employee employed by the City on the 15th day of any month. If an employee is on sick leave with pay in excess of two (2) consecutive working days, the City may require the employee to be examined by a doctor selected and paid by the City, and the doctor must certify that the employee's sickness prevented said employee from performing the duties of his/her position, before said employee will be credited with sick leave pay.

APPENDIX B

UNUSED SICK PAY

Per CBA, members are given 20 sick days per year broken down equals 1.66 days per month.

Members can be paid out monthly 75% of those 20 days which equals 15 days per year but when broken down monthly equals 1.25 days.

TO PAY THEM OUT ON A MONTHL BASIS:

If you take 1.66 days they earned for that month minus out the 1.25 that they get paid (which is 75% of 1.66 days) there is a remaining .41 days.

Therefore, the remaining .41 days per month is carried throughout the year as it is part of their original days earned (20).

So.....They are able to take these days (which are accumulated by the .41) as sick days. However, they cannot get paid out for them.

Just as someone starts out the year with 140 days on the books and uses all 20 of his/her accrued sick days for that year gets paid "sick leave" for all 20 and begins the following year with 140. So in essence, that member gets paid for 100% of his/her sick days.

- A member getting paid "sick leave", also receives "step increase" in their pay for that day taken.
- A member taking "sick leave" is also <u>usually</u> covered by someone at OT rate.
- <u>If sick leave was paid out once at end of the year, it would eliminate all of the calculation interpretation.</u>

APPENDIX C

INSTRUCTIONS FOR VACATION & SICK TIME BOOK

VACATION

- Go to FD Manager
- Open Records then Payroll
- Click on Calendar to Sunday of previous week
- Open Leave Only (Vac. Sick etc.) USE prior sunday date
- Print
- Mark any Vac. day on Vacation Sheet with a **V**.
- Total up at end of month and subtract from previous month's balance

SICK, CHANGE OF SHIFT, LIGHT DUTY, LEAVE NO PAY

- Mark on Sick Sheet: **S** - Sick day, **COS**-Change of Shift, **LD**-Light Duty, **LNP** – Leave No Pay
- On 15th of the month all Fire Personnel receive 1.66 days. If they use any sick time between the 1st and the 15th that must deducted.

If they go over 140 days when they receive the 1.66 they will start receiving a payout for that month **up to 1.25 days**. (see example 1) They amount they get paid for **cannot bring them below 140**. This will affect how much they get paid for. (see example 2 and 3)

1. Ex: 140+1.66=141.66–1.25= 140.41. They will get paid for 1.25 days and ~~accumulate .41 days~~ WILL NOT ACCUMULATE ANY RESIDUAL TIME.
2. Ex: 139+1.66=140.66-.66=140. They will get paid for .66 days and **not** accumulate any time. ^ 75% OF

3. Ex: 138.56+1.66=140.22-.22=140. They will only get paid for 75% of .22 days and **not** accumulate any time.

- From the 16th on, any days taken get subtracted from total from the 15th.

					22,546.84				$ 32,976.60	$ 8,589.18	50.7786667	

AT FEB1, ALL EE'S THAT WERE OVER 140 GET RESET BACKDOWN TO 140 TO BEGIN YEAR.
IF AN EE TAKES A SICK DAY BETWEEN JANUARY 16TH AND FEB 1, WHO WAS OVER 140, As recalculated WOULD BE UNABLE TO TRACK
THAT SICK DAY USING ONLY THIS SPREADSHEET AS W/FD APPLIES THE RESET TO 140 AFTER SICK DAY HAD IS DEDUCTED. (FOR EX.. ENDS JAN AT 145, TAKES 1 DAY, THEN SHOWS UP IN FEB AT 140.)

SEE PY ANNUAL CALC FOR SUMMARY OF SICK DAYS TAKEN DURING THIS PERIOD, WHICH HAVE BEEN ADDED INTO THE CALCULATION ABOVE.
STARTING BALANCES WERE CARRIED FROM JAN 2016 MONTHLY CALC, UNLESS THEY ARE APPEARING FOR THE FIRST TIME THIS MONTH.

SICK LEAVE PAY - MARCH 2016
